

April 29, 1975

included it so we decided to keep it in there.

SENATOR STONEY: Is it your contention with this lower price that will be passed on to the state of Nebraska should we adopt a law such as this that consequently it will result in reduction of price to the consumer.

SENATOR F. LEWIS: Yes, that is our contention, that is our hope.

PRESIDENT: Chair recognizes Senator Nichol.

SENATOR NICHOL: Mr. Chairman I too have a question of Senator Lewis. Since I am new at this liquor legislation how do you make a distiller sell it to you at the low price. Lets take your example of Jack Daniels and lets say that the price is \$5 and the cheapest area would probably be Washington, D. C. and he wants \$5 for it in Nebraska. How do you make him do it?

SENATOR LEWIS: Well if he sells it here, he must do it on that basis and there is a provision, if you have seen the bill that calls for them to file their schedule and it says what happens if they don't and if they don't well you can suspend their permit. Each of them have a permit and it can be suspended.

SENATOR NICHOL: Then if they refuse to do it, they just don't sell that brand in Nebraska is that right?

SENATOR LEWIS: That is right.

PRESIDENT: Senator Koch do you wish to speak again? The question before us is Senator Chambers motion to indefinitely postpone. Is there any further discussion? Senator Chambers.

SENATOR CHAMBERS: Members of the Legislature, I am serious about this attempt to kill this bill. Now I have said time and time again and I mean it that alcohol is the most abused drug in this country. When Senator Swigart and others have talked about certain driving bills that have come up, related to highway and so forth, we know the number of deaths that occur on the highway the number of injuries, the number of broken families all of the evils that result from alcohol and the consumption of alcohol, so I have to be opposed to anything that is going to increase the volume of consumption of this beverage. I do see it as a drug, as a devastating drug, as a matter of fact it is becoming a serious problem among teenagers. So serious that a cartoon was drawn not too long ago of two liquor bottles one was an old liquor bottle that showed a billious individual drunk and it is called Old Grandad and a smaller younger looking bottle called Young Teenager. This is the thing that is being done to destroy the young people of this country and others may not take it seriously but I do. I see some young people under the influence of alcohol and I see how it ravages their bodies and I see the things that it causes them to do and not
